

# CONTACT TRACING

## IMPROVING PRDUCTIVITY AND MORALE

Prevent the spread of disease through fast and efficient contact tracing

**1**  
CASE

Initial case with in your office

**10**  
EXPOSURES

Potential exposures within your office due to limited social distancing protocols

**15**  
CASES

10 exposed employees have now developed into 15 cases within two weeks

**50**  
EXPOSURES

15 cases has now lead to 50 exposures with in your office

**14**  
DAYS

14 days of lost productivity at minimum for each case

With proper protocols that limit exposure and contact tracing as necessary you can prevent the rapid spread with in your office

**Easily  
Preventable**
