

USE OF OUR INNOVATIVE DAILY SCREENING APP

Blue Ocean Health Services, LLC

Daily screening

Daily screening of employees when coming to work was recommended by the EEOC.

How it works

Our app will provide employees with daily screening for COVID symptoms and exposure. The results of the screening can be viewed by the employer.

What if I screen positive

If you screen positive in the app it will prompt you to contact your supervisor for further guidance. It will also tell the person to make an appointment with a physician or book a telemedicine appointment with us for triage and testing.

Help limit the risk of spread of COVID-19 through Daily Screening of Employees

Keep your work place safe and healthy
